LCOE

Cumplimiento de los estándares de eficiencia energética.  
Certificaciones y fotometrias realizadas en laboratorios oficiales.

Conforme aux standards d'efficacité énergétique.  
Certifications et photométries par des laboratoires officiels.

Energy efficiency standards.  
Certifications and certified in official laboratories.

### SOCIAL & SOSTENIBLE | SOCIAL & DURABLE | SOCIAL & SUSTAINABLE:

Sistema opcional de luz bajo demanda para ofrecer luz allí donde sea realmente necesario.

Contribución en el uso responsable de la energía.

Proporciona alto ahorro en CO<sub>2</sub> tanto en energía como en mantenimiento.

Sin contaminación lumínica gracias a fotometrías precisas (ULOR 0%)

Packaging ultra plano que reduce las emisiones así como los costes de transporte.

En option: système de lumière sur demande pour éclairer les points réellement nécessaires.

Contribution à l'usage responsable de l'énergie.

Economie importante en CO<sub>2</sub> aussi bien en énergie comme en entretien.

Pas de pollution lumineuse grâce aux photométries précises (ULOR 0%).

Packaging ultra plat pour réduire les émissions ainsi que les coûts de transport.

Optional smart lighting system. Light-on-demand features to offer light when and where it is really needed.

Contribution to responsible use of energy.

Providing high CO<sub>2</sub> savings (energy and maintenance).

No light pollution (ULOR 0%) thanks to precise photometries.

Ultra flat packaging to reduce emissions and transport cost.

Fabricada en inyección de aluminio reciclabl e.  
Sin mantenimiento.

Luminaire en aluminium injecté et recyclé. Sans  
maintenance.

Die-cast recyclable aluminium. No maintenance  
needed.

Cristal templado con alta resistencia a los impactos (IK09).  
Materiales reciclables. Sin mantenimiento.

Luminaire en aluminium injecté et verre trempé de haute  
résistance aux impacts (IK09). Les matériaux utilisés sont  
recyclés. Sans maintenance.

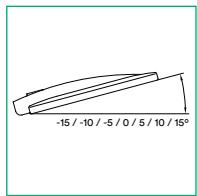

Die-cast aluminium and tempered glass for a high impact  
protection level (IK09). Recyclable materials. No mainte-  
nance needed.

TIPO LIRA

Instalación en lateral o en top. Preciso sistema de inclinación.

Fixation latérale ou en top. Système d'inclinaison précis.

Side-entry and post-top installation. Precise on-site setting in-  
clination system.

Fijación tipo lira. Preciso sistema de inclinación.

Fixation tipo lira. Système d'inclinaison précis.

Tipo lira fixation. Precise on-site setting inclination system.

Preparada para incorporar de forma fácil una foto célula o un sistema de Smart Lighting.

Luminaire préparé pour intégrer facilement une cellule photo-électrique ou un système de Smart-Lighting.

NEMA photocell receptacle, ready to be integrated into a Smart Lighting System.

Diseño aerodinámico  
Resistente a temperaturas extremas.

Conception aérodynamique  
Résistance aux températures extrêmes.

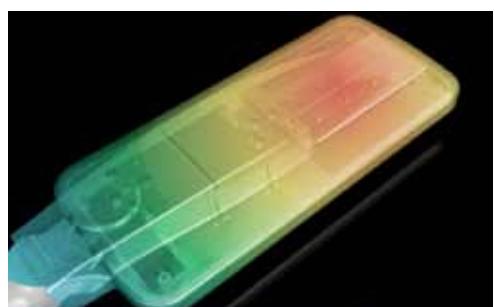

Aerodynamic design  
Resist extreme temperatures.

Concepción propia con alta capacidad de disipación para maximizar la vida útil de los componentes. Integración de protección térmica B-Thermal que disminuye la corriente a través de los LEDs en caso de sobre temperatura.

Conception en interne avec une très haute capacité de dissipation pour maximiser le vie utile des composants. Intégration de protection thermique B-Thermal qui diminue le courant au travers des LEDs en cas de surchauffe.

Finless housing with optimized heat dissipation to maximize the lifetime of components. Integrated thermal protection B-Therm with dimming feature in case of overheating.

Tres tamaños disponibles con flujos luminosos desde 1500 hasta 16000 lumens. Seis modelos en numero de LEDs y 3 tipos de corrientes programables (350mA, 500mA y 700mA).

Trois tailles disponibles avec des flux lumineux de 1500 à 16000 lumens. 6 modèles de quantité de LEDs et 3 types de courants programmables (350mA, 500mA et 700 mA).

Three sizes with light output from 1500 to 16000 lumens. Various numbers of LEDs and 3 drive currents (350mA, 500mA and 700mA).

Fotometrías avanzadas para permitir largas interdistancias entre columnas con una uniformidad perfecta.

Amplia apertura de haz de luz y grande área de emisión luminosa.

Photométries avancées permettant de grandes interdistances entre les mâts avec une uniformité parfaite.

Large ouverture du faisceau de lumière et surface d'émission lumineuse.

Advanced photometries that allow the spacing between poles to be increased with perfect uniformity. Wide emission area with wide light distribution.

Eficacia del sistema hasta 121lm/W @350mA.  
Temperaturas disponibles en 3000°K y 4000°K.  
Índice de reproducción cromática CRI > 70.

Efficacité du système jusqu'à 121 lm/W @350mA.  
Températures disponibles de 3000°K et 4000°K.  
Indice de reproduction chromatique CRI>70.

High system efficacy up to 121lm/W @350mA.  
Choice of colour temperatures: 3000°K and  
4000°K. Colour rendering index CRI > 70.

Elium incorpora los módulos B-flex. La conjunción perfecta entre eficiencia, sostenibilidad, rendimiento, flexibilidad y larga vida útil.

Elium intègre les modules B-flex. Une combinaison parfaite d'efficacité, durabilité, rendement, flexibilité ainsi qu'une vie utile très longue.

Powered by the Benito B-flex LED module.  
B-flex is the perfect combination of efficiency, sustainability, performance, flexibility and a long service life.

Diseño cut-off y anti deslumbramiento.

Design cut-off et anti-éblouissement.

Cut-off and antiglare design.

Dispositivo de protección SPD para preservar la luminaria de picos de tensión (6kV Basic, 10kV Advance y Premium).

Dispositif de protection SPD pour préserver le luminaire des pics de tension (6kV Basic, 10kV Advance et Premium).

Surge protection to preserve the luminaire from voltage spikes (6kV Basic, 10kV Advance and Premium).
